

Worksheet #9 Case Study: The Missing Salmon

Name: _____

Read **pgs.70-75** in the textbook and complete the questions below.

1. Explain why systems thinking is the answer to living harmoniously with nature. Give at least **TWO** examples to clarify your response.

2. Explain why the BC salmon are so important to the human and natural systems in British Columbia.

3. Briefly describe the factors that have created “the Missing Salmon” issue in British Columbia. Do you think this is an important issue in your life? Why or Why not?

4. Who do you think is responsible for the current problem with BC salmon?

5. Draw a cartoon below to express an opinion on one aspect of the disappearing salmon issue.

6. If you were the Minister of Fisheries for Canada, what would you do to help fix this issue?
